

Offer of Admission

Date: 10/04/2025

Dear Aban,

Congratulations! You have been provisionally selected for the prestigious 4-Year **Undergraduate Programme in Computer Science & Artificial Intelligence** at Scaler School of Technology, Bangalore.

Last year over 12,000 applicants applied for the Scaler NSET and our rigorous selection process led to an acceptance rate of just 3.7%, making your current admission offer an achievement you & your family should be proud of. Over 137 students turned down prestigious Tier 1 institutions to join SST, where the top JEE Mains score is 99.44%ile—so you'll be surrounded by some of the nation's brightest minds.

At Scaler, we pride ourselves on our innovative curriculum, designed in collaboration with industry leaders from companies such as Amazon, Google, Microsoft, Meta, and more, and our commitment to practical, real-world learning experiences. You will benefit from personalized mentorship, a future-proof curriculum, and a one-year paid internship, providing a unique blend of theoretical and practical knowledge.

Living on campus is an integral part of the Scaler experience. It is here that you will forge lifelong networks, engage in peer learning, and have access to a multitude of resources that will aid in your personal and professional development.

Scaler's alumni have secured positions in leading tech companies, and with the combination of our rigorous academic program and the backing of prestigious degrees, you will be eligible for further studies and government jobs in India, as well as opportunities to continue your education in renowned institutions abroad.

Welcome to SST, where your future in computer science education begins.
